

Important information for Parents

Dear Parents / Guardians

Armada Education Support Centre is excited to advise that we have partnered with Consent2Go to bring their system to our school. The system will replace our current paper process for obtaining parent permission and consent for school incursions and excursions. The current paper based system is expensive, inefficient, and a huge cost to the environment.

In using Consent2Go the school will not send excursion paperwork home with students. If you do not have an email address or internet access, please advise the school so we can add you to the Consent2Go paper process.

The picture on the left shows the content of the email you will receive. By simply clicking on the blue box you will be automatically connected to the system.

There is no username or password required to use the system. All information is stored in accordance with the Australian privacy requirements.

You will be asked to update your contact details and your child's medical and allergy information. This only needs completing once, parents can then easily update and change details if required through the system.

The school will also use the system to collect payments from parents for excursions. Parents may also attend the school and pay in person if they prefer.

Consent2Go is being introduced to improve the process for parents by providing the school with the most up to date information regarding their child's medical or other related information. This greatly improves the school's ability to manage school excursions and events.

Please contact Armada Education Support Centre on 9497 6435 if you require more information.
